Conditions in the Congo.

Baron von Kritz, the Austrian explorer, who lately returned to Brussels from a visit to the Congo Independent State, in the course of an interview, yesterday, said his observations have given him the most favorable impression of the conditions in the Congo. He added: "A sojourn in the Congo would con-

vince any fair-minded man of the satis-factory administration of King Leopold's dependency. The Congo government has done everything possible to improve the condition of the natives. The latter are now infinitely better housed, clothed and fed than they were fifteen years ago. The hygienic conditions are better, and the natives are steadily acquiring the habits of civilization. The government has opened factories and manual training schools for the native children. The statement that compulsory military service is a disguised form of slavery is not tenable, since the conscription is practi-cally the same as in European countries. Although isolated cases of cruelty may have occurred, this is not part of the Congo system, all officials guilty being severely punished."

The statement credited to Lord Denman that the Belgian Congo question In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ you that dandruff is the result of a germ of the preparations that the cools of the preparation o home affsir. It is maintained that the Congo State's existence as an independent nation does not depend upon the

Wanted Matter Hushed Up.

Yesterday's proceedings in the case of Hugh Watt, the former member of the British Parliament, who is charged with attempting to bribe a private detective named Marshall to assist him in murdering Watt's former wife, were marked by the sensational withdrawal by the cattleman, Norman Battle, of the idence which he gave September 22. On that occasion Battle declared that he overheard a conversation between Marshall was threatened. Battle yes-terday said his real name was Lightfoot

At Watt's dictation Battle (or Lightfoot) wrote a letter to Wati's lawyer saying he could clear Watt. The latter also dictated the evidence which the witness gave September 22. Battle added that he had received about \$200 from Watt and the equerry, was advised to go to Canada and was promised \$25,000 and

a government position for life.

Replying to further questions, Battle said the supposed equerry was introduced as "Lord Kinloch." The latter said the case was to be "hushed up" by order of the King, who was a friend of Lady Violet Watt. The case was adjourned until Octo-

To Exclude Uintarians.

Officials of the Church Federation which is to meet in New York next mouth, have decided to exclude all members of the Unitarian denomination. About 700 official delegates and alternates are going to New York, represent-ing about 18,000,000 of church members. Among the duly elected officials were Dr. Edward Everett Hale, chaplain of the United States Senate; John D. Long, ex-Secretary of the navy, and Rev. Dr. Samuel A. Eliot, president of the American Unitarian Association. The committee in charge has declined to admit them as delegates.

There is a national federation of churches, aiming to bring Christian bodies into active support of measures on which all agree. This federation has been at work for two years on the meet-ing, and has succeeded in getting the official bodies of more than 20 denominations to name delegates. It was not the purpose to obtain organic union. Unitarians supposed they were invited and named delegates. The action barring them out, it is said, brings Unitarians and Trinitarians into a clash on larger scale than any before.

Woman's Kidney Troubles The Place to Buy

of all the diseases known, with which women are afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's tills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing down pains, urine too frequent seanty or high colored, producing scalding or burning, or deposits like brick dust in it; unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running down the inside

marvelously successful it is,

weiling under the eyes or sharp pains in the back running down the inside of her groin, she may be sure her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is,

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

Trial of a Balloon.

constructed under the patronage of the chief engineers and a party of officers who made an extensive reconnaissance of the military defenses from Toul to Nancy, near the German frontier. The balloon ascended about 655 yards,

passing over Fort Vaendreville and the ficers and soldiers.

The distance covered was about 30 miles at a rate of 28 miles per hour. The officers made inspections of the forts and took photographs of them, thus es-tablishing the merits of dirigible balloons for war purposes.
